

DELHI ::: WATER EXPO **2026**

EXHIBITOR PROFILES

A1 BLOWERS INDIA PVT LTD

A1 blowers commenced manufacturing of centrifugal blowers way back in 2006. After looking over the upcoming demand of market, to start manufacturing of twin lobe rotary air blowers way back in 2013. We are an able and agile team of mechanical engineers dedicated to launching their product with a brand name a1 blowers india private limited. We are having a well settled team having an experience of 47+ years in the field of roots type air blowers & boosters. A1 launches an innovative blower with superior quality, higher reliability factor with very competitive price.

A1 Blowers India Pvt. Ltd. is one of India's trusted manufacturers of Twin Lobe Roots Blowers, Tri Lobe Blowers, Ring Blowers, Vacuum Pumps, Acoustic Enclosures, and wastewater treatment equipment for STP, ETP, WTP, Aquaculture, Biogas, Chemical, Food, and Pharmaceutical industries.

That's why so many manufactures of water treatment plants, vacuum plants and system, and pneumatic conveying systems have entrusted their reputation to A1BIPL our broad product line of roots blowers/compressors (Bi-lobe & Tri-lobe) (Air/Gas Duty), mechanical vacuum boosters, dry screw vacuum pumps, acoustic hoods & industrial vacuum system consists of standard and custom major product group.

ACCORD POWER DIGITAL PRODUCTS

Accord Power Conversion Pvt Ltd Incorporated in the year of 2012, Engaged into Manufacturing of SMPS Based Power Supplies, EV Charger, DC-DC Converters, Micro Controller Based Logic PCB's, Office Automation. Accord Power Digital products, Incorporated in the year of 2015, is engaged into manufacturing of RO Control Panels, Water ATM Controller, STP, ETP, WTP/UF Panels, AMPV, Dosing Pump, Stater etc.

We are committed to provide innovative and reliable products & Services, by meeting the National & International quality standards. The Company has a qualified and Experienced R&D Team to develop the customized requirements. 30 Years of manufacturing Experience with BIS, CE & ROHS Approved. Our Products are well received in the market for end application like Telecom, Lighting Industries, Water Purifiers, Set Top Boxes etc.

AKASH BLOWERS PVT. LTD.

Akash Blowers is an Indian manufacturer of industrial blowers and vacuum systems. The company has over 45 years of experience in the industry. It manufactures Twin Lobe and Tri Lobe Rotary Air Blowers, Roots Blowers, Ring Blowers, and vacuum systems. Its products are used in wastewater treatment, cement, chemical, pharmaceutical, food, and other industries. The company focuses on providing reliable, efficient, and durable air-handling solutions.

Akash Blowers has an in-house design and engineering team to develop customized solutions. Its manufacturing facility is located in Bahadurgarh, Haryana. The company follows quality-focused manufacturing practices and maintains an ISO 9001:2015-compliant quality system. With its wide product range and engineering expertise, Akash Blowers aims to deliver dependable industrial air and vacuum solutions to customers.

ALBION ECOTECH PVT. LTD.

Albion Ecotech Pvt. Ltd. is a water and wastewater treatment company based in Surat, Gujarat, incorporated in 2010. We design, supply, install and commission treatment plants - STP, ETP, MBR, MBBR, AMBBR, packaged and civil-based systems - for industries, municipalities, builders and institutions across India.

Built to fill the gap between large corporates and unorganized local contractors, Albion combines enterprise-grade technology with faster execution, fair pricing and founder-level accountability. Every plant we commission and every claim we make is backed by real data from real projects - not promises. With 15+ years of expertise and a technology partnership with Sumitomo, Japan for PTFE membrane systems, we've delivered 700+ projects across 8+ countries. Our positioning: enterprise-grade water recycling technology, without the enterprise-grade wait and cost.

AMAR PLASTICS

We are Amar Plastics, a leading manufacturer of P.P Filter Presses in India. Located in Chhatral, near Ahmedabad, we specialize in Manual, Semi-Automatic, and Fully Automatic Filter Presses, including Membrane and CGR types.

Our customizable solutions cater to industries such as Dyes, Chemicals, Pharmaceuticals, and more.

We cater to diverse industries with reliable solutions. In chemical and petrochemical applications, we ensure efficiency and safety. Our systems adhere to strict standards in the pharmaceutical industry and ensure hygiene in food and beverage processing. For mining and minerals, we provide durable equipment for tough operations, while in water and wastewater treatment, our technologies promote cleaner, sustainable management.

AUTUS ENVIRONMENT PROTECTION TECHNOLOGIES PVT. LTD.

Autus Environment Protection Technologies has been a pioneer in industrial solutions for over a decade. Headquartered in the industrial hub of Pune, we have grown from a specialized startup into a market leader in environmental protection systems.

Our commitment to “Engineering for a Cleaner Future” drives us to design and manufacture world-class air pollution control and waste management systems that exceed global standards.

The company specializes in designing and manufacturing environmental protection systems for industries. Its solutions include air pollution control, waste management, water treatment, process chemistry, and clean-air technologies. Autus focuses on providing high-performance, cost-effective, and sustainable solutions that help industries meet environmental regulations.

COREMIN PRODUCTS LLP

Coremin Products LLP is an Indian mineral technology pioneer behind Natural Mineral Intelligence™, transforming industrial hydration via custom ionic formulations, precision dosing systems, and advanced application tech. Partnering with US-based Coremin Global Resources LLC—leveraging 57+ years of Utah natural mineral harvesting—Coremin delivers 70+ bioavailable trace minerals across India and worldwide.

Mission: "Improving Global Wellbeing Through Mineral Nutrition."

Applications:

Bottled Water: Formulations for commercial packaged drinking water plants.

Hospitality: Turn-key glass-bottling systems for premium hotel-branded water.

Restaurants & Cafés: Custom branded bottles for signature dining experiences.

Beverage Systems: Ionic mineral bases for sports, juice, and wellness drinks.

ELINT SYSTEMS

MyTank is a smart water management company transforming conventional water infrastructure into intelligent, connected and fully automated ecosystems. Our end-to-end Industrial IoT platform integrates wireless radar level sensors, pump automation, flow monitoring, pressure sensing, valve automation, water quality monitoring and AI-powered analytics to provide complete visibility and control from a single cloud and mobile platform.

Built with LoRa&4G communication, solar-powered devices, and plug-and-play deployment, MyTank enables real-time monitoring across residential communities, commercial buildings, industries, hospitals, educational campuses, municipalities, and utility networks. The platform automates water distribution, prevents tank overflows, eliminates dry-run pump failures, detects leaks, optimizes energy consumption, and delivers actionable alerts for faster decision-making.

FERMENTA ENVIRONMENT SOLUTIONS PRIVATE LIMITED

Fermenta Environment Solutions Pvt. Ltd. (FESPL), a subsidiary of Fermenta Biotech Ltd., delivers end-to-end water and wastewater management solutions backed by Fermenta's 75-year legacy of scientific innovation and sustainability.

FESPL designs and commissions advanced Sewage Treatment Plants (STPs) and Effluent Treatment Plants (ETPs) using proven biological technologies such as MBBR, MBR, and SBR, ensuring efficient treatment, compact plant footprints, and compliance with environmental regulations.

Our expertise includes water recovery and reuse solutions through Ultrafiltration (UF), Reverse Osmosis (RO), Demineralization (DM), Desalination, and Zero Liquid Discharge (ZLD) systems, helping industries optimize water use and achieve sustainability goals.

We also specialize in plant modernization through SCADA and PLC-based automation for enhanced operational efficiency and real-time monitoring. Our proprietary FERMSEPT bio-culture improves biological treatment by reducing BOD/COD, controlling odor, and accelerating plant stabilization.

Backed by engineering consultancy and comprehensive Operations & Maintenance (O&M) services, FESPL delivers reliable, efficient, and sustainable water treatment solutions.

FLOW GUARDS

Flowguards is an Indian manufacturer and OEM supplier specializing in Vertical Inline Multistage High-Pressure Pumps. Our pumps are designed for reliable, efficient, and consistent high-pressure water applications across multiple industries.

We manufacture premium stainless-steel pumps suitable for RO Plants, Water Treatment Plants, Industrial Applications, Pressure Boosting Systems, HVAC Systems, Commercial Buildings, Hotels, Hospitals, and other demanding water-management applications.

Our Vertical Inline Multistage High-Pressure Pumps are engineered for compact installation, smooth operation, high efficiency, and long-lasting performance. With in-house manufacturing and strict quality control, Flowguards focuses on delivering dependable pumping solutions with excellent performance and competitive pricing.

We proudly support dealers, distributors, OEM partners, and industrial customers across India with quality products, technical support, and reliable supply.

HINDUSTAN BOTTLING AND ENGINEERS

Hindustan Bottling & Engineers is a leading manufacturer of beverage processing and packaging machinery, providing innovative and customized solutions for the water, carbonated soft drinks, juice, and dairy industries.

Our product range includes Rinser-Filler-Capper (Trio Block) Machines, Rotary Labelling Machines, Shrink Sleeve Applicators, Shrink Wrapping Machines, and Aseptic Liquid Filling Machines. Designed with advanced automation, high-quality SS 304 construction, PLC-based controls, and user-friendly operation, our machines ensure high efficiency, precision, and reliability.

We offer production capacities ranging from 40 BPM to 400 BPM, catering to businesses of all sizes. With a strong focus on quality, innovation, and customer satisfaction, we deliver complete turnkey packaging solutions tailored to customer requirements. Our experienced team provides comprehensive technical support, installation, and after-sales service, making us a trusted partner for beverage manufacturers seeking efficient, durable, and cost-effective packaging equipment.

LEVAPOR INDIA PVT LTD

Levapor India Pvt. Ltd. is a wastewater treatment technology company specializing in biological wastewater treatment solutions. The company provides advanced MBBR and IFAS-based process technologies for industrial and municipal wastewater treatment. Its key product is Levapor MBBR/IFAS carrier media, made from porous PU foam impregnated with activated carbon.

These carriers provide high surface area and internal porosity for effective microbial growth. The technology is used for BOD, COD and ammonia nitrogen reduction in wastewater. Levapor solutions can be applied in both ETP and STP applications. The company also provides solutions for upgrading existing wastewater treatment plants.

Its technology is suitable for difficult-to-biodegrade and toxic industrial effluents. Major application industries include pharmaceuticals, agrochemicals, pulp & paper and organic chemicals.

MERAKI POOLS INDIA PVT. LTD.

Established in the year 2014, at Delhi (India), we "Meraki Pools India Pvt. Ltd." hold expertise in Manufacturer and Wholesaler commendable range of Swimming Pool Filters & Pumps (Importer) Swimming Pool Cleaning Equipment, Swimming Pool Light, Swimming Pool Loungers and much more to provide our clients with.

This offered range is manufactured by making use of premium quality required basic material and components, procured from the established vendors of the industry. Moreover, this offered gamut is designed and developed in complete adherence with the illustrated parameters of the industry, followed by comprehensive R&D. Our product range holds several attributes such as long service life, resistance against corrosion, excellent performance and high compressive strength.

We offer this gamut in different sizes and specifications so as to meet divergent demands of the clients. Furthermore; we hold specialization in providing our clients with the best and suitable customized solutions as per their detailed specifications.

SWAN ENVIRONMENTAL PVT. LTD.

SWAN ENVIRONMENTAL PVT. LTD. was incorporated in 1988 with an intention to contribute to environmental protection through business. SWAN is acronym for Soil Water Air Noise. As the name suggests, SWAN offers a host of products of reputed make that can analyze and quantify soil, water, air and noise. SWAN is very selective in choosing their technology partners and gives utmost importance to proven technology and proven track record to identify their partners.

Product Portfolio :

Continuous Ambient Air Quality Monitoring Systems (CAAQMS)
Stack Emissions and Process Monitoring Instruments (CEMS, VOCs etc)
Effluent Quality Monitoring Systems (EQMS)
Water Quality Monitoring Instruments
Environmental Hygiene & Safety (EHS) Monitoring Instruments

Services for above products like Spares, Consumables, AMC, CMC etc are also provided by SWAN.

In the last 30+ years SWAN had the opportunity to serve various industrial sectors, Government Organisations, Laboratories and Institutions across India

WATFIX CHEMICALS

WatFix Chemicals is a premier supplier of Raw Chemicals and high-performance formulated Water Treatment solutions based in New Delhi. We specialise in driving industrial efficiency, maintaining asset lifespan, and ensuring environmental compliance across diverse water infrastructure systems.

At WatFix Chemicals, we specialize in supplying Premium-Grade Raw Chemicals for water treatment across various industries. We formulate chemicals for Cooling Tower Water Treatment, Boiler Water Treatment, Reverse-Osmosis Feed Water Treatment. Our expertise spans municipal water treatment plants, industrial facilities, commercial buildings, and residential systems.

We understand the critical role that quality raw chemicals play in effective water treatment processes. That's why we source only the highest grade materials from certified manufacturers and maintain strict quality control standards for all our products. Every batch undergoes rigorous testing in our state-of-the-art laboratory facilities before reaching our customers.
